Return of JoeScan Product for Repair from Outside the Unites States

Customs routinely processes shipments between sellers and buyers. Those shipments are subject to fees and taxes. Goods returned for repair are not subject to these charges. It is essential that the customs paperwork is clearly marked to avoid extra costs.

Commercial Invoice

Use FedEx or UPS to ship goods to JoeScan. Goods will not be allowed to clear customs without a commercial invoice. Three copies should be attached to the shipment. FedEx or UPS can assist in producing this document, or you can download a blank commercial invoice from the Internet.

Here are the details you will need for shipping a repair to JoeScan:

Reason for Export	Repair and Return
Ship to and Sold to	JoeScan, Inc. 4510 NE 68th Drive, Suite 124 Vancouver, WA 98661 USA +1-360-993-0069
Description of Goods	There are three components to the Description of Goods: (1) Product name: " OPTICAL PROFILE MEASUREMENT DEVICE. " To avoid shipment delays and additional costs, <i>do not</i> use the words "laser" or "scanner." (2) Reason for the shipment: " US Goods Returned for Repair " (3) Harmonized Tariff Number for returned goods: 9801.10.0000 Example: JoeScan JS20 OPTICAL PROFILE MEASUREMENT DEVICE. US goods being returned for repair. HTS# 9801.10.0000
Value (in USD)	Use original purchase price. If you are unsure of the purchase price, use the fair market value of the product (between \$2000 and \$8000 USD). The value does not have to be accurate on repair returns, but it cannot be left blank.
Country of Origin	USA
Additional Comments and Declaration Statement	US Goods returned for Repair, value for customs purposes only
