

MADE FOR SAWMILLS

		NEAR	FAR
	Resolution	+/- 0.005" (+/- 0.13mm)	+/- 0.02" (+/- 0.5mm)
GENERAL DATA	Density	72 points per inch (28 points per cm)	23 points per inch (9 points per cm)
	Max Speed	2000 profiles per second	
	Points per Profile	Up to 1456	
	Deuror	IFFF 002.2 of Douver over Ethernet	
	Power	IEEE 802.3 af Power over Ethernet	
	Laser Type	Pulsed, Class 3R	
	Laser Color	Visible red	
	Computer	Single standard PC per system	
	Data Interface	Gigabit Ethernet, M12 connector	
	Weight	2.78 lbs ( 1.26 kg )	
	Operating Temp	0° to 120°F ( <i>-20° to 50°C</i> )	
	Storage Temp	-40° to 176°F ( <i>-40° to 80℃</i> )	
	Lighting	Fully operational between indoor lightin	g (no sunlight) and complete darkness

#### SCANNING WHERE YOU NEED IT

JS-50 WSC is a single camera variant of the JS-50 WX scan head in a smaller housing. It is intended to be used in applications where other scanners are too large to fit.

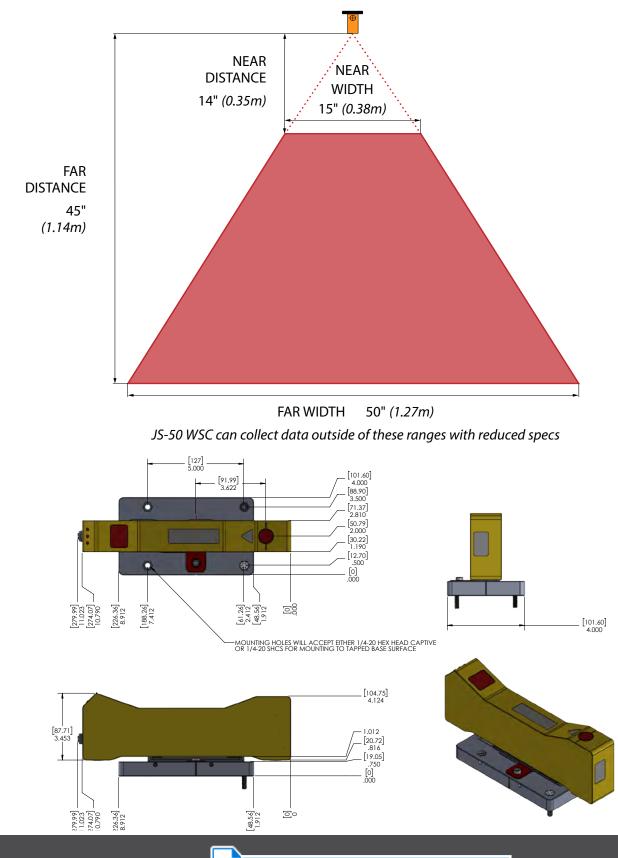

For example, the JS-50 WSC can be mounted such that the laser projects just 1 inch from an obstruction to the scan frame, such as a saw box.

## MADE FOR SAWMILLS

# 5 YEAR WARRANTY O YEAR SUPPORT IFETIME COMMITMENT

At JoeScan, we make scanners for sawmills.

Our only focus is to deliver results for our sawmill partners. We have more than 5,000 scanners installed in sawmills all over the world, and our very first scanners are still running strong, over 20 years later.

Since 2002, we've learned what works for sawmills.

We keep our solutions simple.

We make sure that everything we make can stand up to the rigors of the sawmill environment, day after day, year after year.

And we work hard to deliver cost-effective scanning solutions for the sawmill industry.

Because we are committed to serving our partners, JoeScans are made for sawmills. If you'd like to become one of our partners, we are ready to prove it to you.
